

Dear Sir/Madam,

RE: Request for Sponsorship for the 2023 General Physician education program to be held in Sydney on the 26th – 28th April 2023.

On behalf of the **Australia & New Zealand General Medicine Update** (ANZGMU) 2023 program, it gives us great pleasure to invite your company to sponsor the event.

This coming year marks the 4th ANZGMU, which is the only event in Australia & New Zealand where various sub-specialities of adult internal medicine are discussed on a single platform over three days. The update will explore recent trends in diagnostic and treatment modalities in the various subspecialties of internal medicine and is designed to improve applicable knowledge for all attendees.

Over the years, ANZGMU has been very well received by the medical community. Over 300 participants have attended the event including 150 Staff Specialists from Australia & New Zealand. The NSW Health Education Training Institute (HETI) had sponsored 30 general medicine advanced trainees to attend the event.

As you may be aware, there are over 800 General Physicians in Australia and New Zealand and many of them are dual trained in General Medicine and another sub-speciality. Being the first of its kind, we believe that an event like this will only continue to grow and are anticipating greater numbers of physicians to attend the 2023 update.

Sponsorship for ANZGMU 20223 will provide your company with an opportunity to create exposure and impart knowledge to the attending trainee and consultant physicians, which will make a real difference for Australian and New Zealand Medicine today and for years to come. ANZGMU sponsors have included prestigious companies like Amgen, Alexion, Bayer, Vifor, Boehringer lily, AstraZeneca and MIPS.

For more information about the event, please visit www.anzgm.com.au or review the sponsorship prospectus, enclosed.

If you're interested in sponsorship, kindly confirm by Monday, **9th January 2023**.

We thank you in anticipation of your support for the 4th Annual Australia & New Zealand General Medicine Update, and we look forward to hearing from you soon.

Kind Regards,

Dr Surjit Tarafdar
